Re: AB548 (Levine) and SB1021 (Padilla)

Dear Governor Schwarzenegger,

It is my understanding the two above bills are on your desk awaiting your signature. AB548 would require apartment owners to provide recycling for multi-family dwellings and SB 1021 would use unclaimed CRV funds to pay for a one year program to give money to non-profit groups, local governments and curbside operators to place recycling receptacles in apartment buildings.

Knowing your commitment to the environment, I would assume your support of these measures would go a long way toward accomplishing our objectives in reducing trash and improving our environment.

Sincerely,

Anthony B. "Tony" Santos
Mayor, City of San Leandro
